Summary

Innovative Software Development Engineer Intern with experience in developing, testing, and debugging code for diverse projects. Strengths include deep understanding of data structures, algorithms, and software design with the ability to quickly learn new technologies. Demonstrated impact through successful collaboration on team projects and effective problem-solving skills leading to optimized solutions. Innovative SDE Intern known for high productivity and efficient task completion. Possess specialized skills in Java programming, algorithm optimization, and cloud computing solutions. Excel in teamwork, problem-solving, and adaptability, ensuring seamless collaboration and innovative solutions in software development projects. Talented Software Developer equipped with great coding, debugging and project management abilities. Accomplishes project goals consistently with elegant, scalable code. Works great with team members under Agile and Scrum frameworks.

Skills

- Python programming
- API integration
- Automated testing
- Software development
- Version control
- Problem solving
- Time management
- Flexibility
- Machine learning
- Data analysis
- Statistical modeling
- Attention to detail
- Effective communication
- Web application development
- System validation
- Database management
- Team collaboration
- HTML
- Javascript
- CSS
- Front-end frameworks
- Front-end development
- Programming languages
- Web development projects
- Full-stack development
- Programming
- Problem-solving

Experience

Infosys
SDE Intern

- Implemented automated tests using Python scripting language for system validation purposes.
- Built scripts to automate common tasks associated with release management operations.
- Integrated web services APIs into existing applications using RESTful architecture principles.

Education and Training

Sri Chaitanya Techno School | Visakhapatnam
B.Tech in Computer Science
